### Birchbox Breakdown

Leave behind your troubles, not your skincare products, on your next getaway. Now traveling is easy, no matter your destination, with this set of antiaging body products and beautifying teas. They come complete in a handmade case that can also double as jewelry storage.

### How it Works

The Daily Body Scrub's crushed grape seeds and milled corncob meal gently slough off dead skin for a polished finish. Organic honey and white and green tea extracts in the Daily Body Serum and Daily Body Treatment slow aging and keep skin soft. Lips stay hydrated and hands keep a healthy appearance thanks to collagen-boosting peptides in the Bedside Manner Lip + Hand Treatment. The tea duo helps skin look its best, starting from the inside. Keep it all organized with the custom case.

### How to Use

Throw this TSA-friendly team of products into your carry on. Start the day with a cup of the Daily Beauty Tea. Once you reach your destination, exfoliate skin (two to four times weekly) with the scrub. Follow up with serum and then the body treatment. Smooth the lip and hand treatment onto lips and hands twice daily. Unwind with the Nightly Beauty Tea.
